

Experiment NO: 5

Objective : write HTML code to demonstrate the use of Anchor Tag for the following separately -

- creating a web link that opens in a new window.
- Reference within the same html document.
- Making an image a hyperlink to display second image.

```
<!DOCTYPE  
<!DOCTYPE html >
```

```
<html>
```

```
<body>
```

```
<h2> the target Attribute</h2>
```

```
<a href = "https://www.w3schools.com/">
```

```
Visit W3Schools! </a>
```

```
<p> If target = "_blank", the link will open in a new browser
```

```
window or tab. </p>
```

```
</body>
```

```
</html>
```
